With permission, feature it in that lesson’s gallery

LESSON 4 · STUDENT REFLECTIONS

Learning Remote Computing in a Virtual Laundromat

Aaryan Sajwani Student reflection · 3:42

Watch reflection · Transcript draft

Each lesson has its own reflection gallery. Before a video is featured, the project team confirms the contributor’s permission and chosen credit. The video then appears with a short description and, when available, a transcript.

Future learners can hear a student describe the same lesson before recording their own reflection.

Still at 01:23 of Aaryan Sajwani’s reflection, with the five prompts on his screen. Galleries fill as students contribute, so not every lesson has a reflection yet.
